Order deadline: April 20 (or when stock is depleted)

All bundles contain 25 bareroot trees or shrubs unless otherwise noted (5 count on larger size and packets contain 20 trees or shrubs as noted). The SWCD reserves the right to substitute sizes and stock if needed.

Trees will tentatively be available for pick-up April 26, 27 & 28. Postcards will be sent out in April announcing pickup date, times, and location. Unless prior arrangements are made, trees not picked up on the scheduled dates will be forfeited and no refunds will be given.

Because of the perishable nature of trees & shrubs, the SWCD is not responsible for their condition after being picked up by customers or if picked up after scheduled dates.

Orders are accepted on a first come, first serve basis.

Please remit total amount due with order.

Deadline to cancel an order is February 24, 2012. Any order cancelled after that date will forfeit half of the cost of the order.

The SWCD has a tree planting machine available to rent for planting large blocks of trees. Call for details. **(651) 674-2333**

*~**WHITE PINE** (*Pinus strobus*) Fast growing, soils-loamy sand through clay loam, and full to partial sun. Mature height 75-100' tall.

*~**RED (Norway) PINE** (*Pinus resinosa*) Minnesota State Tree. Fast growing, soils-sand through silty loam, and full to partial sun. Mature height 75-100' tall.

*~**BALSAM FIR** (*Abies balsamea*) Moderate growth rate, soils-sand through clay loam, full sun through shade. Mature height 50-75'.

#~**BLACK HILLS SPRUCE** (*Picea glauca densata*) Moderate growth rate, soils-loamy sand through clay, will tolerate full to partial sun. Mature height 30-50' tall.

#~**NORWAY SPRUCE** (*Picea abies*) Fastest growing spruce, soils-sandy loam through clay in full sun. Mature height 80' tall.

*~**WHITE SPRUCE** (*Picea glauca*) Moderate growth rate, soils-sandy loam through clay in sun through shade. Mature height 50-75' tall.

*~**BASSWOOD** (*Tilia Americana*) Fast growing, soils-sandy loam through clay in full sun to partial shade. Mature height 60-80' tall.

*~**HACKBERRY** (*Celtis occidentalis*) Fast growing, soils sandy loam to silty clay, full to partial sun. Medium to large tree with nice form. Has bright yellow fall color. Grows in many different moisture regimes. Mature height 50 – 75 ft.

*~**CHOCKECHERRY** (*Prunus Virginiana*) Fast growing, soils- sandy loam through clay, and full sun through part shade. Yellow fall color, produces an edible fruit. Mature height 10-25' tall.

*~**SILVER MAPLE** (*Acer saccharinum*) Very fast growing, soils-sand through clay, and full sun to part shade. Mature height 60-80'.

*~**SUGAR MAPLE** (*Acer saccharum*) Moderate growth rate, soils-sandy loam through silty loam, and full sun to shade. Has bright green leaves that turn yellow to scarlet in the fall. Mature height 50-75' tall.

*~**RED MAPLE** (*Acer rubrum*) Fast growing, prefers sand through clay and does well in sun to partial shade. Fall foliage usually red but may be yellow or orange. Grows 50 to 70 feet tall.

*~**RED OAK** (*Quercus rubra*) Moderate growth rate, soils-sandy loam through clay, and full to partial sun. Dark green leaves that turn red in fall. Mature height 60-80'.

*#~**WHITE OAK** (*Quercus alba*) Slow growing, sand through clay, and full sun to partial sun, and has a very high wildlife rating. Mature height 75-100'.

~**HYBRID POPLAR** (*Populus x*) Very fast growing, soils-sand through clay, and full to partial sun. Yellow fall foliage. Mature height 70-90' tall.

*#~**WHITE/PAPER BIRCH** (*Betula papyrifera*) Moderate growth rate, soils-sand through silty clay, and full to partial sun. White papery bark makes this a popular landscape tree. Yellow fall color. Mature height 50-70' tall.

~**GOLDEN WILLOW** (*Salix alba "Vitellina"*) Fast growing, upright tree with slightly drooping branches. Will grow in most soils, prefers moist sites, full sun to partial shade. Mature height 40-55' tall.

*~**RIVER BIRCH** (*Betula nigra*) Fast growing, soils-sand through clay, and full to partial sun, does well in a wetter site. Mature height 30-50' tall.

*~**RED SPLENDOR CRABAPPLE** (*Malus 'red splendor'*) Moderate growth rate, soils-sandy loam through clay in full sun. Mature height 20-30' tall.

*~**HIGHBUSH CRANBERRY** (*Viburnum trilobum*) Moderate growth rate, soils sandy loam through clay, full sun through shade. Grows in uplands and lowlands. Beautiful shrub all year round. Showy white flowers, bright red berries that persist through the winter (good food for birds), dark to bright red fall color. Fruit good for jelly and jam. Mature height 8 – 12 ft.

#~**ROSA RUGOSA** (*Rosa rugosa*) Fast growing, soils sandy loam through clay loam, full sun. One of the most trouble free roses, blooms all summer, fragrant, colors vary (red, white or pink), root suckers freely. Mature height 4 – 8 ft.

#~**COMMON LILAC** (*Syringa vulgaris*) Moderate growth rate, soils-sandy loam through clay loam, and full sun. Green foliage, lavender spring flower. Mature height 10-15' tall.

*~**REDOSIER DOGWOOD** (*Cornus stolonifera*) Fast growing shrub, soil-sand through clay, and full sun. Has medium to dark green leaves and red stems. Produces berries for wildlife, and is good for wetter sites. Mature height 6-12' tall.

NANKING CHERRY (*Prunus tomentosa*) Moderate growth rate, soils-sand loam through clay loam, and full sun to partial shade. Pinkish white flowers followed by red/yellow fruit. Widely used for jelly if not taken by birds. Mature height 6-8' tall.

SHRUB PACKET: 20 shrubs including: Silky Dogwood, Nanking Cherry, Common Lilac, and Rosa Rugosa.

MN NATIVE TREE PACKET: 20 trees including: White Spruce, White Pine, White Birch, and Red Maple.

SUPPLIES AVAILABLE:

Marker Flags 25 brightly colored 36" flags used to mark and help you keep track of young trees in grassy non maintained areas.

Root Dip helps plants retain moisture and prevents tree loss due to dry conditions. The powder is mixed with water, and the roots are dipped into the mixture just before planting.

Fertilizer Packets are dropped in the hole at the time of planting. Nutrients are released slowly over a long period.

Plantskydd deer and rabbit repellent. This blood meal based product when sprayed on will help to deter deer and rabbits from nipping off young shoots for approximately 6 months.
