

Sunrise River - Main Portion - Hwy 95

Monitoring Years: 2006-2008

Current Impairments: At this particular location there are no impairments, however, other portions of the river are impaired for the following: dissolved oxygen, fish bioassessments, macroinvertebrate bioassessments, turbidity, pH, and fecal coliform.

Interesting Facts about the Sunrise River:

- Starts as a Judicial Ditch, two other branches combine to form the Sunrise River near Wyoming
- This portion is most used for recreation including canoeing, tubing, and fishing
- Transparency tube readings are generally high (clear water) unless there is a major runoff event
